|  | + | 5 M | 5 M |

Experience is related to both the number of years at EMU and the years of experience obtained elsewhere which relates to the current job at EMU.

A discretionary step is the result of a supervisor distinguishing the need to add a step based on the following discretionary factors:

- market availability of the particular skills needed
- prevailing wage for those with the particular skills needed
- added work load/responsibilities
- outstanding performance/service
- exceptional, non-quantifiable qualifications

The following procedure will be followed in order to activate and process a request for a discretionary step:

- the supervisor/director can initiate the request for a step by making a recommendation to the vice president or provost
- the vice president or provost should present the recommendation to the Human Resources Office by the deadline publicized annually in the budgeting process to be effective July 1
- the Human Resources Office will complete a "Discretionary Step Authorization" form and
- the respective vice president will review it for approval or disapproval in consultation with the vice president for finance and the human resources director

It cannot be assumed that the step will transfer from position to position nor level to level should the employee change positions.
